
BEND PROTECTOR ANGLE BOARDS

Sustainable. Versatile. Endurable.

| Highlights

Highly Sustainable

Made with 100% recyclable materials and is placed back into the sustainability cycle

Cost-effective Solution

Optimizes performance at a lower cost than laminated products, wooden crates, and skid tops

Application Versatility

Is used for edge protection, unitization, and stabilization

Reliability

Protects products throughout the transportation cycle

Features and Benefits

Maximum versatility

Protects single-carton shipments

Application-specific solutions (Customization)

Custom printing for branding & product identification

Reduces costs

Light-weight

Technical Specifications

Size	Length (A)	Length (B)	Thickness (C)	Compressive Strength (N)	Strapping Strength (N)
40*40*4	40	40	4	430	190
40*40*5	40	40	5	450	280
50*50*4	50	50	4	960	410
50*50*5	50	50	5	1310	530
60*60*4	60	60	4	1295	490
60*60*5	60	60	5	1435	605
75*75*4	75	75	4	1450	630
75*75*5	75	75	5	2030	905

Tolerances: Legs +/- 5mm*, Thickness +/- 0.4mm*, Length +/- 5mm, Angle +/- 10°, (*Average of 2 legs)

Industries We Serve

Pharma

Paper

Chemical

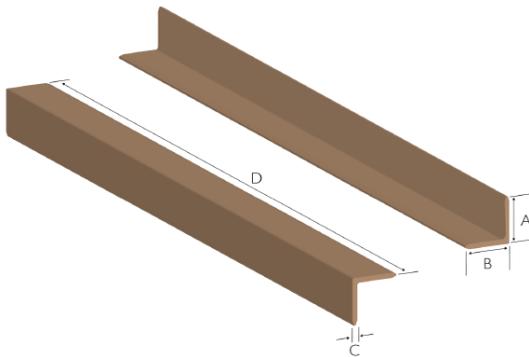

FMCG

Consumer Durables

Engineering and more...

Key : A = Leg, B = Leg, C = Thickness, D = Length
